There are now 800 female physicians in the United States. When two democrats join in a friendly drink, and they drink frequently, they

Ex-Secretary Evarts said the other day, "the strongest republican candidate this year for New York, would not be a New Yorker."

The only record the democrats have made during this congress is on the Moirison tariff bill. They don't seem to have any ambition to do anything more. Monsures which demand attention that public interest may be benefited, are treated with contempt by the democrats. On Monday they refused to fix a time for the consideration of a National bankruptcy law. Inspired by the same lack of public spirit they have refused to act on the bills for the relief of the National banka or to regulate the electoral count, or for many other objects on which legis-

John C. Brewer, of Fond du Lac has commonced an action against A. K. Namilton, alleging defamation of character to the extent of \$8,000.—Exchange

lation is demanded by the people.

To this the Beloit Free Press answers Many Beloit people would like to have this same Mr. Hamilton rise up and give satisfactory explanation to the false, and as many believe malicious, statements published so generally in the newspapers in regard to our old friend and former citizen, Mr. Fred A. Dennett." The Gazette is glad to record the fact that the charges against Mr. Dennett were ascertained, after a thorough examination, to be entirely without foundation.

The Manhattan Magazine for Junea rare number of a most sterling publication-appears with a new and exceedingly attractive cover, and a rich table of contents. It is one of the finest printed magazines published in this country, and in thorough merit, both in the text and illustrations, it has no superior. Purely upon its own merit it has grown in the course of two years, to the dignity of a first class illustrated literary monthly-There is another excellent feature about the Manhattan, it is only \$3.00 a year, or 25 cents a number, and is published by the Manhattan Magazine Co., Temple Court, New York City.

Last year some thirty deaths occurred in this country from mistakes made by drug clerks compounding prescriptions. The clerks were not to blame, but the physicians who gave the prescriptions were. The characters and terms generally used in prescriptions are an abomination, and lead to fatal errors. The Chicago Journal calls attention to these facts and suggests that the medical socities now in session in that city, should meet the domands of the times, and urge a radical change in physicians made of chirography. "As the average doctor now writes out his prescriptions, we dely a drug-clerk or any other sane person to decipher them, and this probably is the reason why so many cases are reported of late where drugstore prescriptionists have caused the death of sick people by putting up the wrong medicines, or, more properly speaking, the wrong poisons. There is no more reason why a physician should one; it only makes the compositors mad and that is innocent amusement.

That chronic sorehead, moral coward, and infinited ass, ex-Attorney General Man Veach, wrote an open letter to ex-Secretary Bristow, giving the latter "points" for the speech he was then to make before the business men's meeting in New York. Mac Veagh, whose ruling spirit is malice, and whose purpose is principally to grumble, uses these words in the open letter:

At the threshold I ought to warn you that while nobody covies Mr. Arthur the great prize, as far beyond his expectations as his deserts, which he drew in the lottery of assassination, yet nobody has forgotten the prognant fact that Guiteau was the original Arthur man, that he killed President Garfield expressly to make Mr. Arthur president, and that he did make him president by that act for nearly four years.

With the matter and the sendity of this statement, no republican whose heart is not black with corruption, will find no sympathy. Thoughtful men will turn in disgust from reading such a paragraph as that. It shows that its author has no consciouce and that he is dead to all honor and manliness. It will be distinctly remembered that when President Garfield appointed MacVengh to the position of attorney general of the United States, there was general surprice. The Grant men were disappointed, the Sherman men were astonished at the appointment of such a man, and Mr Blains said then and there with great earnestness, that MacVeagh had dealt him as many stabs in the back as any man living. What Blaine said of the new attorney general was true, and it only required the passing of a few months to convince everybody that MacVeagb was a covardly assussin of men's characters. He stabbed Bluine in the back while in the darkness, and would slander the ones with whom he professed to be friendly. He is now opposing Arthur. and pretends to be for Blaine. He is a man of consummate political hypogracy, and although he may praise Blaine to-day he will more than likely give him a stab in the dark to-morrow. Mad Lecause his personal ambition could not be satisfied to the full, and because his selfish schemes miscarried, he now attempts to defame the character of the president, and to maliciously and falsely

TROUBLED BROKERS.

The Wall Street Operator Carries a Long Face Around with Him.

Continued Weakness Causes Despondency-Suspension at Pittsburg-Effect of Trouble on Gen. Grant.

New York, May 22.—There is no improvement in Wall strest affairs. On the contrary matters seemed to be growing worse and there was more anxiety depicted on the coun lenances of brokers and speculators than has been noticeable since the panic. The feeling of unsecurity which prevailed was everywhere manifest and many brokers refused to do any business for customers except in cases where the latter agreed to buy stocks in which they wished to speculate out and out. All customers wishing to speculate on margins were oither put off by the asking of large sums or informed that in the present unsettled condition of the amrket such operations were entirely out of the question. Despondency seemed to have taken a hold of speculators generally, and those who were loudly asserting that the worst was over, and an immediate boom in prices would ensue, could not be induced to venture an opinion as to the future course of

speciation.
The outpour of stock continued undi-minished, and the announcement of the failure of Brownell & Co., brokers, although there was no selling for them under the rule, had an additional weakening effect. The uncertainly with regard to how Mr. Sage will come out was also a disturbing in-Sage will come out was also a disturbing in-dance, some saying that he would be driven to the wall and others that \$500,000 would clear him and that much he could pay easily. It was the general belief that if he should fail the effect would be very disastrons.

Late in the day came the aunouncement of the suspension of the Pennsylvania Na-tional bank of Pittsburg, which added to the distrustful feeling in stock circles. The usual bear reports as to the condition of va-rious railway and other compations were

rious railway and other corporations were kept flying around, and the decline at the close in most instances ranged from 34 to 5 per cent, as compared with Tuesday's clos ing. Supporting orders caused a rise in Western Union of 1% per cont. President Poffer, of the suspended Atlantic

bank of Brooklyn, intimated to a reporter that there was a large sum in dispute be-tween his bank and the Metropolitan bank of New York, the latter refusing to recog-nize a certain transaction by Mr. Sensy. He declined to state the amount involved, but the question of the bank's resumption is supposed to hinge upon the settlement of this disagreement.

Suspension of a Pittsburg Bank. PITTSEURO, Pa., May 22.—Great excitement was caused in business circles here by the closing of the Pennsylvania National bank, one of the oldest and most important banking institutions in this city. Its business was mostly done among oil men, and its suspension paralyzed that branch of speculation. Many reasons were immediately current as to the cause, the most vigorously urged being the assertion that the bank | had been allowing brokers to overdraw their accounts. These rumors were positively denied by parties interested in the bank, who asserted that

it was perfectly solvent and would pay all its liabilities.

The directors were called together, and William T. Riddle, the president, arose from a sick bed and wont to the meeting. The immediate cause of the suspension was a persistent run on the bank for the past two days. At night a meeting of the leading bankers was hold, at which the bank submitted a statement of its condition, which was carefully arangined, and represent all, researched. statement of its constable, water was cars-fully examined, and convinced all present that the bank was entirely solvent, and it was therefore agreed to supply sufficient money to pay off its habilities. It was deemed inadvisable to resume immediately, but it is expected that the necessary formalities can be completed and the bank be enabled to resume Friday.

Gen. Grant and the Ward Fallure.

NEW YORK, May 22.—A Washington special says that a gentleman who saw Gen. Grant in this city last week declares that he is uttorly broken down by the disclosures which have followed the failure of the firm a which have followed the failure of the firm has lost the respect and confidence of the country. The general admits that some of his friends came to him months ago and warned him that Ward was an adventurer, and was using his name in an improper way, but his confidence in the young man was so great that he repulsed them, and thinks that he may have treated some of them coolly. He is said to be so sorsitive about the matter that he does not read the newspapers, and knows but little of the magnitude of the failare, or the extent of Ward's fraudulent op-

Ford Ward Arrested. New York, May 22.—Fordland Ward, of the firm of Grant & Ward, was arrested late at eight at the Metropolitan hotel.

The order of arrest was produced by John R. Dos Passos in the suit of J. Nelson Tappan, the city chamberlain, who alleges in the complaint the mis-appropriation of \$300,000. Ward was unable to obtain buil, and he spent the night a prisoner in the company of the Deputy Sheriff. He has expressed a desire to make a clean breast of his transactions, and wants to make a fair distribution of his prop orty among those who have suffered.

He Paid Fifty Per Cent. a Month. WASHINGTON CITY, May 22.—George H. He did an extensive business and had in his hands for investment upwards of \$200, 000. He speculated in petroleum on margins and was in the habit of paying 50 per cent. : month as profits to his customers. His friends say he will turn up, having gone off on a spree and that his accounts are all right.

The testing by of the defense closed in the afternoon. The evidence introduced shows Mott was not drunk on the Sunday night of the riot, but was sick in the hospital. Lieut. A NEW SENSATION IN ISRAEL.

Changes in the Form of Jewish Wor ship Suggested by an "Advanced"

NEW YORK, May 22,-At a roccut meeting of the committees on the condition of the Hebraw temple Emanuel, on Fifth avenue those present were startled by the radical ideas expressed in a letter from Rabbi Gus-tay Gottbiel, which was road. The rabbi admitted that the attendance upon worship was decreasing, and the interest in the congregation's affairs waning. He then proceeded to state what he considered to be the causes of the state of things. Rabbi Gottbiel's views are interesting as being those of one of the most popular preachers of the advanced school of Hebrow theology. The rabbi after referring to the materialistic tendencies of the age, declares that the Hebrew ritual has outlived its usefulness, has become a hindrance to devotion and should at once be rovised. He thinks the service should be conducted in the vernacular, with just sufficient Hebrew to show respect for the venerable language. There should be less monotony in the service, and new and congregational music should be in-troduced. The holding of the weekly service to Saturday makes it impossible for many to be present, and leads to failure of attendance, and the weakening of religious induced. From this cause the younger generation is in danger of broaking away entirely from the ancestral faith. The only away was to held Sunday environery. romedy was to hold Sunday services as well as those of Saturday. He ad-mitted the gravity of the question, and advised the careful action always required in crises. The letter caused a decided sensuling, even among the fashlonable and not too orthodox congregation of Emanuel. It was ermoox congregation of Emanuel. It was not plain that a majority sided with the paster. A special committee of fitteen was appointed to consider the proposition. Josse Seligman, Lazarus Rosenfeld, and other well-known Hebrew gentlemen are on the committee. A leading Jewish newspaper declares that Sunday services would be fatal to the Hebrew relicion. to the Hebrew religion.

WASHINGTON CITY, May 22.—The house recupied most of the day on the English-Peelle contested election case, and a number of speeches were made by the friends of the of speeches wave made by the friends of the contestants. One feature of the debate was that Lore, of Dolaware, a Democratic member, advocated the passage of the influority report in favor of Peelle. He discarded as inworthy of consideration all the matter brought forward except the change of votes discovered in the recount of votes for the sheriff of Marion county by a Mr. Browe. With no other evidence than that of a personal friend, acting without calling in his collemnes, he could not vote to seat English. colleagues, he could not vote to seat English. colloques, he could not vote to seat Engine-Long, of Massachusetts, made an earmest appeal for a non-partisan judgment of the case, and then Peelle occupied the remaining twenty minutes of his hour in defense of his claim to the seat. After yielding ten minutes to Hurd, Converse took the floor for the closing argument, during which English, the contestant, and his father, occupied soats on the floor. At the conclusion of his remarks, Converse

Peelle hoped no one would object, and the gentleman recorded his vote in the negative.

the result was announced—yeas, 121; nays, 117. Springer then moved to reconsider the vote, and a number of Republicans moved to lay the motion on the table. Pending a vote Springer moved to adjourn, on which motion the yeas and nays were ordered, and the motion prevailed—110 to 118.

the motion prevailed—140 to 118.

The Democrats who voted against unseating Peelle, were Messys. Alken of South Carolina, Beach of Wisconsin, Boyle of Pennsylvania, Badd of California, Connolly of Pennsylvania, Dargan of South Carolina, Findlay of Maryland, Greenleaf of New York, Hardaman of Georgia, Herbort of Alabama, Hewitt of Alabama, Hunt of Louisiana, Jones of Wisconsin, Lore of Delaware, Mills of Texas, Morgan of Missouri, Neece of Illinois, Peel of Arkansas, Potter of New York, Stavens of New York, Summer of California, Throckmorton of Texas, Tillman of South Carolina, Turner of Goor-Tillman of South Carolina, Turner of Goorgia, Woodward of Wisconsin, Worthington of Illinois, and Yaple of Michigan -27. The Washinging City Luther Statue. WASHINGTON CITY, May 23. - The ceremonies at the unveiling of the Luther status recently erected at the Lutheran Memorial church were begun with the rendition of Hayda's "The Heavens are Telling," by the marine band. Providence, R. His health is constantly improving. He intends to return to Washington series next week. brief but interesting history of the statuo was then read by Ebv. J. G. Butler, paster of the Lutheran Memorial church. This was fol-lowed by Volkman's "Organ Sonata," by the band. Senator O. D. Conger, of Michigan, delivered an address. Handel's "Hallelujah Chorus" was given by the band, and Bay J. G. Morriss D. P. followed with and Rev. J. G. Morriss, D. D., followed with an address. The cord attached to the flag covering the statue was then pulled, and as the drappry fell, disclosing the face of the great reformer, the bund played Luther's famous battle hymn "Ein Festa Burg." The coremonies were brought to a close with the enediction, pronounced by Rev. Dr. Albert,

The statue is of bronze, colossal in size, roprosenting the great reformer standing with a Bible in his hands. The Swalm Inquiry. WASHINGTON CITY, May 22.—The Swaim court of inquiry has considered the argu-ments submitted by counsel and transmitted

their recommendations to the war depart-ment, Gen. Pope leaving Washington for his post as soon as his duty was completed. The arguments of counsel merely, reviewed ut brought out in evidence or argument during the trial. Mr. Chandler's argu-ment for the presention, claiming that all of Mr. Bateman's charges against Gen. Swaini had been sustained; that he had been shown to have endeavored to negotiate the due-bill when he must have known that it was not negotiable, and that nothing was due to him, and that the transactions charged concerning the pay-accounts had been sustained by the evidence.

Mr. Calkins' argument for the defense, on the contrary, claims that nothing derogatory to Gen. Swaim was developed; that his transactions with Bateman, his disposition of the due-bill, etc., were entirely consistent with honesty and integrity, while it was shown that he had no knowledge of pay-account duplications which made it incumbent upon him to take official action.

The M. E. University, of Dakota.

The marvelous rapidity with which the territory of Dukota is being filled with enterprising settlers, is one of the wonders of the age. As Roman colonization followed close upon Roman subjugation so no sooner is any portion of this territory thrown open to the settler than possosion is taken, and the work of devolupment is began. The settler soon forgets that it is a new country. One of the most striking features is the immediate building of churches and school houses. Already the foundation of a erritorial university is planted by the Methodist denomination. Ou account of its central location, beauty

of landscape purity of water and bealth-fulness of chuate, the village of Ordway was universally deemed the most approprinte locality to the territory for the lo-cation of the capitol grounds, and \$100,-000 for a capitol building were required to secure the location. To meet this demand a company was formed of citizens of Ordway, and capitalists in Chicago. A large amount of land was purchased in the immediate vicinity. Scarcely any one questioned but that Ordway located in the almost exact goographical center of the territory east of the Missouri river would receive the location of the capital. But by an enormous pressure brought to bear by the North Pacific railroad, the location was made at Bismark. This left a door open for the founding of a nuiversity which the friends of Methodturversity which the mends of Methodism were not slow to improve. Application was made to parties owning property there to aid in the work, and a most magnificent work has been begun. A proposition was made to the M. E. conferance which met at Huron, October 11, which was warmly accepted. Trustees were appointed by Bishop Simpson and the work is fully begun.

the work is fully begun.
The proposition made for the location of the university consisted of an eighty acre campus, beautifully situated on a bluff one half tuile from the village, fifty valuable village lots, two hundred and forty acres of land for a college farm, and a half interest in six hundred and forty acres of village property. This property is situated in the heart of the village and the interest of the college. An additional sale of sufficient to make \$50,000 to the college was guaranteed a cabinet made up of several departments, well worth ten thousand dollars, was pledged. Assoon as \$25,000 worth of this property

is sold it is to be applied to a college professorship. The opinion was expressed by Bishop Simpson that the Methodist people had never begun an educational work in this country with more especial advantages.
Ordway has already three different railroads, viz. the Northwestern, the James River Valloy road and the Ordway & Bismarck road. The two last named roads make their southern boundries at Ordway. Material is already purchased for the foundation structure of the col-

lege and the work is moving on.
